

cl_px4_mr::CbArmPX4
::onEntry

cl_px4_mr::CbTakeOff
::onEntry

cl_px4_mr::CpVehicleCommand
::setOffboardMode

```
graph LR; A[cl_px4_mr::CbArmPX4::onEntry] --> C[cl_px4_mr::CpVehicleCommand::setOffboardMode]; B[cl_px4_mr::CbTakeOff::onEntry] --> C;
```

The diagram illustrates a callout structure. On the left, there are two white rectangular boxes with black borders. The top box contains the text 'cl_px4_mr::CbArmPX4::onEntry' and the bottom box contains 'cl_px4_mr::CbTakeOff::onEntry'. On the right, there is a gray rectangular box with a black border containing the text 'cl_px4_mr::CpVehicleCommand::setOffboardMode'. Two blue arrows point from the right side of each white box to the left side of the gray box, indicating that both 'onEntry' methods call the 'setOffboardMode' method.
