graph LR; A[smacc2::ISmaccOrthogonal::addClientBehavior] --> D[smacc2::ISmaccOrthogonal::getName]; B[smacc2::ISmaccOrthogonal::initState] --> D; C[smacc2::ISmaccOrthogonal::runtimeConfigure] --> D;
```

The diagram illustrates a directed relationship between four boxes. On the left, there are three white boxes with black borders, each containing text. On the right, there is a single gray box with a black border, also containing text. Three blue arrows originate from the right side of each white box and point towards the left side of the gray box. The gray box is positioned to the right of the three white boxes and is vertically centered relative to the middle one.
