

```
boost::statechart::  
event< EvTopicMessage  
< TSource, TOrthogonal,  
typename TSource::TMessageType > >
```

The diagram shows two class boxes. The top box is white with a black border and contains the definition of `boost::statechart::event`. The bottom box is gray with a black border and contains the definition of `smacc2::default_events::EvTopicMessage`. A blue arrow with an open triangle head points from the bottom box to the top box, indicating that the bottom class inherits from the top class.

```
smacc2::default_events  
::EvTopicMessage< TSource,  
TOrthogonal, TMessageType >
```

```
+ msgData
```

```
+ getEventLabel()
```
