

```
boost::statechart::  
event< EvUnvisitedAprilTag  
Detected< AsyncCB, Orthogonal > >
```

The diagram illustrates an inheritance relationship. A light gray box at the bottom represents the base class `cl_isaac_apriltag::EvUnvisitedAprilTagDetected`. A blue arrow points upwards from this box to a white box at the top, which represents the derived class `boost::statechart::event< EvUnvisitedAprilTagDetected< AsyncCB, Orthogonal > >`. The white box is divided into three horizontal sections, with the first section containing the class name and the other two sections being empty.

```
cl_isaac_apriltag::  
EvUnvisitedAprilTagDetected  
  < AsyncCB, Orthogonal >
```
