The diagram illustrates a dependency or relationship between four components. On the left, there are three white rectangular boxes with black borders, each containing a text label. These labels are: 'smacc2::ISmaccOrthogonal::addClientBehavior' (top), 'smacc2::ISmaccOrthogonal::initState' (middle), and 'smacc2::ISmaccOrthogonal::runtimeConfigure' (bottom). On the right, there is a single gray rectangular box with a black border, containing the text 'smacc2::ISmaccOrthogonal::getName'. Three blue arrows originate from the right side of each of the three white boxes and point towards the left side of the gray box, indicating that the three methods on the left are associated with or depend on the 'getName' method on the right.
