

```
boost::statechart::  
event< EvKeyPressD<  
    TSource, TOrthogonal > >
```

A UML class diagram showing inheritance. The base class, `boost::statechart::event< EvKeyPressD< TSource, TOrthogonal > >`, is represented by a white box with a black border and is divided into three horizontal compartments. The top compartment contains the class name, while the middle and bottom compartments are empty. The derived class, `cl_keyboard::EvKeyPressD< TSource, TOrthogonal >`, is represented by a gray box with a black border and is also divided into three horizontal compartments. The top compartment contains the class name, while the middle and bottom compartments are empty. A blue arrow with an open triangular head points from the top of the derived class box to the bottom of the base class box, indicating an inheritance relationship.

```
cl_keyboard::EvKeyPressD  
< TSource, TOrthogonal >
```
