

```
boost::statechart::  
event< EvTransitionOnError  
Success< TSourceObject,  
TOrthogonal > >
```

A UML class diagram showing inheritance. A light gray box at the top represents the base class `boost::statechart::event< EvTransitionOnErrorSuccess< TSourceObject, TOrthogonal > >`. A darker gray box at the bottom represents the derived class `cl_lifecyclenode::EvTransitionOnErrorSuccess< TSourceObject, TOrthogonal >`. A blue arrow with an open triangular head points from the derived class box to the base class box, indicating that the derived class inherits from the base class.

```
cl_lifecyclenode::EvTransition  
OnErrorSuccess< TSourceObject,  
TOrthogonal >
```
