

```
boost::statechart::  
event< EvTransitionOnShutdown  
Error< TSourceObject, TOrthogonal > >
```

The diagram shows two class boxes. The top box is white and contains the text 'boost::statechart::event< EvTransitionOnShutdownError< TSourceObject, TOrthogonal > >'. The bottom box is gray and contains the text 'cl_lifecyclenode::EvTransitionOnShutdownError< TSourceObject, TOrthogonal >'. A blue arrow with an open triangle head points from the bottom box to the top box, indicating inheritance.

```
cl_lifecyclenode::EvTransition  
OnShutdownError< TSourceObject,  
TOrthogonal >
```
