

```
cl_modbus_tcp_relay  
::CpModbusConnection  
::onInitialize
```

A diagram showing a call from the `onInitialize` method of the `cl_modbus_tcp_relay::CpModbusConnection` class to the `declareAndLoadParam` method of the same class. A blue arrow points from the `onInitialize` method in the left box to the `declareAndLoadParam` method in the right box.

```
cl_modbus_tcp_relay  
::CpModbusConnection  
::declareAndLoadParam
```
