

smacc2::ISmaccComponent
::requiresComponent

smacc2::ISmaccComponent
::requiresComponent

smacc2::ISmaccClient
::getComponents

```
graph LR; A[smacc2::ISmaccComponent  
::requiresComponent] --> C[smacc2::ISmaccClient  
::getComponents]; B[smacc2::ISmaccComponent  
::requiresComponent] --> C;
```

The diagram consists of three rectangular boxes. On the left, there are two white boxes with black borders, each containing the text 'smacc2::ISmaccComponent' followed by '::requiresComponent' on a new line. On the right, there is a single gray box with a black border containing the text 'smacc2::ISmaccClient' followed by '::getComponents' on a new line. Two blue arrows originate from the right side of the two white boxes and point towards the left side of the gray box, indicating a relationship or flow from the component requirements to the client's component retrieval method.
