

```
boost::statechart::  
event< EvKeyPressD<  
    TSource, TOrthogonal > >
```

The diagram illustrates an inheritance relationship. A light gray box at the bottom represents the base class `cl_keyboard::components`, and a white box at the top represents the derived class `boost::statechart::event`. A blue arrow points from the top of the base class box to the bottom of the derived class box, indicating that `cl_keyboard::components` inherits from `boost::statechart::event`.

```
cl_keyboard::components  
::EvKeyPressD< TSource,  
    TOrthogonal >
```
