

```
boost::statechart::  
event< EvKeyPressR<  
    TSource, TOrthogonal > >
```

The diagram illustrates an inheritance relationship. A light gray box at the top represents the base class `boost::statechart::event< EvKeyPressR< TSource, TOrthogonal > >`. A blue arrow points upwards from a darker gray box at the bottom, which represents the derived class `cl_keyboard::components::EvKeyPressR< TSource, TOrthogonal >`. Both boxes are divided into three horizontal sections, with the first section containing the code and the other two being empty.

```
cl_keyboard::components  
::EvKeyPressR< TSource,  
    TOrthogonal >
```
