

```
boost::statechart::  
event< EvKeyPressZ<  
    TSource, TOrthogonal > >
```

The diagram illustrates an inheritance relationship. A light gray box at the top represents the base class `boost::statechart::event< EvKeyPressZ< TSource, TOrthogonal > >`. A blue arrow points from a darker gray box at the bottom to the base class box. The bottom box represents the derived class `cl_keyboard::components::EvKeyPressZ< TSource, TOrthogonal >`. Both boxes are divided into three horizontal sections, with the top section containing the class name and the other two sections being empty.

```
cl_keyboard::components  
::EvKeyPressZ< TSource,  
    TOrthogonal >
```
