::getName

```
graph LR; A[smacc2::ISmaccOrthogonal::addClientBehavior] --> D[smacc2::ISmaccOrthogonal::getName]; B[smacc2::ISmaccOrthogonal::initState] --> D; C[smacc2::ISmaccOrthogonal::runtimeConfigure] --> D;
```

The diagram illustrates a dependency or inheritance relationship. Three boxes on the left, each containing a class name and a method name, have blue arrows pointing to a single box on the right. The boxes on the left are white with black text, while the box on the right is gray with black text. The arrows are blue and point from the bottom-right of each left box to the left side of the right box.
