

smacc2_client_library
/cl_http/include/cl_http
/client_behaviors/cb_http
_request.hpp

```
graph BT; A["smacc2_client_library  
/cl_http/include/cl_http  
/client_behaviors/cb_http  
_get_request.hpp"] --> C["smacc2_client_library  
/cl_http/include/cl_http  
/client_behaviors/cb_http  
_request.hpp"]; B["smacc2_client_library  
/cl_http/include/cl_http  
/client_behaviors/cb_http  
_post_request.hpp"] --> C;
```

The diagram illustrates a file dependency structure. At the top is a grey box representing a header file: `smacc2_client_library`, `/cl_http/include/cl_http`, `/client_behaviors/cb_http`, and `_request.hpp`. Below it are two white boxes representing source files. The left box contains `smacc2_client_library`, `/cl_http/include/cl_http`, `/client_behaviors/cb_http`, and `_get_request.hpp`. The right box contains `smacc2_client_library`, `/cl_http/include/cl_http`, `/client_behaviors/cb_http`, and `_post_request.hpp`. Two blue arrows point from the bottom of each source file box to the bottom of the header file box, indicating that both source files include the header file.
