

cl_px4_mr::CbGoToLocation
::onEntry

cl_px4_mr::CbTakeOff
::onEntry

cl_px4_mr::CpGoalChecker
::setGoal

```
graph LR; A[cl_px4_mr::CbGoToLocation::onEntry] --> C[cl_px4_mr::CpGoalChecker::setGoal]; B[cl_px4_mr::CbTakeOff::onEntry] --> C;
```

The diagram illustrates a control flow where two callback functions, `cl_px4_mr::CbGoToLocation::onEntry` and `cl_px4_mr::CbTakeOff::onEntry`, both trigger the `cl_px4_mr::CpGoalChecker::setGoal` method. The callback boxes are white with black borders, while the goal checker box is solid gray. Blue arrows indicate the direction of the calls.
