```
graph LR; A[smacc2::ISmaccOrthogonal::addClientBehavior] --> D[smacc2::ISmaccOrthogonal::getName]; B[smacc2::ISmaccOrthogonal::initState] --> D; C[smacc2::ISmaccOrthogonal::runtimeConfigure] --> D;
```

The diagram illustrates a directed relationship between four boxes. On the left, there are three white boxes with black borders, each containing a text label. On the right, there is a single gray box with a black border, also containing a text label. Three blue arrows originate from the right side of each white box and point towards the left side of the gray box, indicating a flow or dependency from the left boxes to the right box.
