The diagram illustrates a callback mechanism. Two separate callback functions, `cl_nav2z::CbPauseSlam::onEntry` and `cl_nav2z::CbResumeSlam::onEntry`, are shown on the left. Both functions are represented by white rectangular boxes with black borders. Blue arrows originate from the right side of each box and point towards a single gray rectangular box on the right. This gray box represents the target function, `cl_nav2z::CpSlamToolbox::toggleState`, which is the common destination for both callbacks.
