

cl_nav2z::CbNav2ZClientBehavior
Base::cancelGoal

cl_nav2z::CbAbortNavigation
::onEntry

cl_nav2z::components
::CpNav2ActionInterface
::cancelNavigation

```
graph LR; A["cl_nav2z::CbNav2ZClientBehavior  
Base::cancelGoal"] --> C["cl_nav2z::components  
::CpNav2ActionInterface  
::cancelNavigation"]; B["cl_nav2z::CbAbortNavigation  
::onEntry"] --> C;
```

The diagram illustrates two function calls originating from the left and pointing to a common target on the right. The top call is from `cl_nav2z::CbNav2ZClientBehaviorBase::cancelGoal` and the bottom call is from `cl_nav2z::CbAbortNavigation::onEntry`. Both calls point to the `cl_nav2z::components::CpNav2ActionInterface::cancelNavigation` function. The target function is highlighted in a gray box, while the source functions are in white boxes with black borders. Blue arrows indicate the direction of the calls.
