

```
boost::statechart::  
event< EvKeyPressE<  
    TSource, TOrthogonal > >
```

The diagram illustrates an inheritance relationship. At the top is a white box representing the base class `boost::statechart::event< EvKeyPressE< TSource, TOrthogonal > >`. It is divided into three horizontal sections. The bottom section is empty. Below this box is a gray box representing the derived class `cl_keyboard::components::EvKeyPressE< TSource, TOrthogonal >`, also divided into three horizontal sections. The top section contains the class name, and the bottom two sections are empty. Two blue arrows point upwards from the top of the gray box to the bottom of the white box, indicating that the gray box inherits from the white box.

```
cl_keyboard::components  
::EvKeyPressE< TSource,  
    TOrthogonal >
```
