The diagram illustrates a dependency relationship between three files in the smacc2_client_library. At the top is a header file (cb_navigate_backwards.hpp) located in the include directory. Below it are two source files. The file on the left (cb_navigate_backward.cpp) is located in the src directory and includes the header file. The file on the right (client_behaviors.hpp) is located in the include directory and also includes the header file. Blue arrows point from each source file to the header file, indicating that both source files depend on the header file.
