

```
boost::statechart::  
event< EvKeyPressE<  
    TSource, TOrthogonal > >
```

The diagram illustrates an inheritance relationship. At the bottom is a grey box representing the base class `cl_keyboard::components::EvKeyPressE`. At the top is a white box representing the derived class `boost::statechart::event`. Two blue arrows point upwards from the base class box to the derived class box, indicating that the base class inherits from the derived class.

```
cl_keyboard::components  
::EvKeyPressE< TSource,  
    TOrthogonal >
```
