

```
boost::statechart::  
event< EvAllGo< TReactorType,  
      EmptyObjectTag > >
```

The diagram illustrates an inheritance relationship. A light blue box at the top represents the base class `boost::statechart::event< EvAllGo< TReactorType, EmptyObjectTag > >`. A darker blue box at the bottom represents the derived class `smacc2::state_reactors::EvAllGo< TReactorType, TReactorTag >`. A light blue arrow points from the bottom box to the top box, indicating that the bottom class inherits from the top class.

```
smacc2::state_reactors  
::EvAllGo< TReactorType,  
          TReactorTag >
```
