

```
boost::statechart::  
event< EvTopicMessage  
< TSource, TOrthogonal,  
typename TSource::TMessageType > >
```

The diagram shows a class hierarchy. The top class, `boost::statechart::event< EvTopicMessage< TSource, TOrthogonal, typename TSource::TMessageType > >`, is represented by a white box with a black border. The bottom class, `smacc2::default_events::EvTopicMessage< TSource, TOrthogonal, TMessageType >`, is represented by a grey box with a black border. A blue arrow with a hollow triangular head points from the bottom class to the top class, indicating inheritance.

```
smacc2::default_events  
::EvTopicMessage< TSource,  
TOrthogonal, TMessageType >
```

```
+ msgData
```

```
+ getEventLabel()
```
