

```
boost::statechart::  
event< EvKeyPressW<  
    TSource, TOrthogonal > >
```

The diagram illustrates an inheritance relationship. At the bottom is a grey box representing the base class `cl_keyboard::components::EvKeyPressW`. At the top is a white box representing the derived class `boost::statechart::event`. Two blue arrows point upwards from the top of the grey box to the bottom of the white box, indicating that the grey box inherits from the white box.

```
cl_keyboard::components  
::EvKeyPressW< TSource,  
    TOrthogonal >
```
