

```
boost::statechart::  
event< EvTopicMessage  
< TSource, TOrthogonal,  
typename TSource::TMessageType > >
```

The diagram illustrates an inheritance relationship. A blue arrow points from the `smacc2::default_events::EvTopicMessage` class to the `boost::statechart::event` class. The `boost::statechart::event` class is shown in a white box with a black border, and the `smacc2::default_events::EvTopicMessage` class is shown in a gray box with a black border. The arrow is blue and has a hollow triangular head.

```
smacc2::default_events  
::EvTopicMessage< TSource,  
TOrthogonal, TMessageType >
```

```
+ msgData
```

```
+ getEventLabel()
```
