

```
boost::statechart::  
event< EvTopicMessageTimeout  
    < TSource, TOrthogonal > >
```

The diagram shows two class boxes. The top box is white and contains the text 'boost::statechart::event< EvTopicMessageTimeout < TSource, TOrthogonal > >'. The bottom box is gray and contains the text 'cl_multirole_sensor::EvTopicMessageTimeout < TSource, TOrthogonal >'. A blue arrow with a hollow triangular head points from the top of the gray box to the bottom of the white box, indicating that the gray class inherits from the white class.

```
cl_multirole_sensor  
::EvTopicMessageTimeout  
    < TSource, TOrthogonal >
```
