

```
boost::statechart::  
event< EvAllGo< TReactorType,  
      EmptyObjectTag > >
```

The diagram illustrates an inheritance relationship. A light blue box at the top represents the base class, `boost::statechart::event< EvAllGo< TReactorType, EmptyObjectTag > >`. A dark gray box at the bottom represents the derived class, `smacc2::state_reactors::EvAllGo< TReactorType, TReactorTag >`. A blue arrow points from the top of the dark gray box to the bottom of the light blue box, indicating that the derived class inherits from the base class.

```
smacc2::state_reactors  
::EvAllGo< TReactorType,  
          TReactorTag >
```
