

```
boost::statechart::  
event< EvKeyPressQ<  
    TSource, TOrthogonal > >
```

The diagram illustrates an inheritance relationship. A white box at the top represents the base class `boost::statechart::event< EvKeyPressQ< TSource, TOrthogonal > >`. Below it is a grey box representing the derived class `cl_keyboard::components::EvKeyPressQ< TSource, TOrthogonal >`. Two blue arrows point upwards from the derived class box to the base class box, indicating that the derived class inherits from the base class.

```
cl_keyboard::components  
::EvKeyPressQ< TSource,  
    TOrthogonal >
```
