

smacc2::SmaccState
::initial_deep_construct

```
graph LR; A[smacc2::SmaccState  
::initial_deep_construct] --> B[smacc2::SmaccState  
::deep_construct]; B --> C[smacc2::SmaccState  
::shallow_construct];
```

The diagram illustrates a three-step process for constructing a `smacc2::SmaccState` object. It consists of three rectangular boxes connected by blue arrows pointing from left to right. The first box, labeled `smacc2::SmaccState::initial_deep_construct`, is white with a black border. A blue arrow points from its right side to the second box, labeled `smacc2::SmaccState::deep_construct`, which is also white with a black border. Another blue arrow points from the right side of the second box to the third box, labeled `smacc2::SmaccState::shallow_construct`. This third box is shaded gray with a black border.
