

```
boost::statechart::  
event< EvFPattern< AsyncCB,  
        Orthogonal > >
```

A UML class diagram showing inheritance. The base class, `boost::statechart::event< EvFPattern< AsyncCB, Orthogonal > >`, is represented by a white box with a black border and is divided into three horizontal compartments. The top compartment contains the class name. The derived class, `cl_mission_tracker::EvFPattern< AsyncCB, Orthogonal >`, is represented by a gray box with a black border and is also divided into three horizontal compartments. The top compartment contains the class name. A blue arrow points from the top compartment of the derived class to the bottom of the base class box, indicating inheritance.

```
cl_mission_tracker  
::EvFPattern< AsyncCB,  
        Orthogonal >
```
