

```
boost::statechart::  
event< EvKeyPressP<  
    TSource, TOrthogonal > >
```

The diagram illustrates an inheritance relationship. A light gray box at the top represents the base class `boost::statechart::event< EvKeyPressP< TSource, TOrthogonal > >`. It is divided into three horizontal sections. Below it is a darker gray box representing the derived class `cl_keyboard::components::EvKeyPressP< TSource, TOrthogonal >`, also divided into three horizontal sections. Two blue arrows point upwards from the top of the derived class box to the bottom of the base class box, indicating that the derived class inherits from the base class.

```
cl_keyboard::components  
::EvKeyPressP< TSource,  
    TOrthogonal >
```
