

smacc2::ISmaccComponent
::getName

```
graph LR; A[smacc2::ISmaccComponent::getName] --> B[smacc2::introspection::demangleSymbol]; B --> B;
```

The diagram illustrates a function call. A grey box on the left represents the caller, `smacc2::ISmaccComponent::getName`. A straight blue arrow points from this box to a white box on the right, which represents the callee, `smacc2::introspection::demangleSymbol`. Above the white box, a curved blue arrow loops back to itself, indicating a self-call or a recursive operation within the `demangleSymbol` function.

smacc2::introspection
::demangleSymbol
