

cl_keyboard::CbDefaultKeyboard
Behavior::onEntry

cl_keyboard::CbKeyboardTwist
Teleop::onEntry

cl_keyboard::components
::CpKeyboardListener1
::OnArrowPress

```
graph LR; A["cl_keyboard::CbDefaultKeyboardBehavior::onEntry"] --> C["cl_keyboard::components::CpKeyboardListener1::OnArrowPress"]; B["cl_keyboard::CbKeyboardTwistTeleop::onEntry"] --> C;
```

The diagram illustrates a mapping from two source functions to a single target function. On the left, there are two white rectangular boxes. The top box contains the text 'cl_keyboard::CbDefaultKeyboardBehavior::onEntry' and the bottom box contains 'cl_keyboard::CbKeyboardTwistTeleop::onEntry'. On the right, there is a gray rectangular box containing 'cl_keyboard::components::CpKeyboardListener1::OnArrowPress'. Two blue arrows originate from the right side of the left boxes and point towards the left side of the gray box, indicating a relationship or mapping between the source functions and the target function.
