

cl_nav2z::pure_spinning
_local_planner::PureSpinning
LocalPlanner::updateParameters

```
graph LR; A["cl_nav2z::pure_spinning  
_local_planner::PureSpinning  
LocalPlanner::updateParameters"] --> B["cl_nav2z::pure_spinning  
_local_planner::tryGetOrSet"]
```

A diagram showing a call from the `updateParameters` method of the `LocalPlanner` class to the `tryGetOrSet` method of the `PureSpinning` class. The left box is shaded gray and the right box is white. A blue arrow points from the left box to the right box.
